No. 1R - Radio Plate

This Radio Plate has the two binding posts securely attached. The post marked "G" (Ground) is grounded to the plate. The "A" (Antenna) post is insulated. Screws fit directly over box.

ALL PLATES COMPLETE WITH BINDING POSTS.

No. 1S - Combination Radio Plate

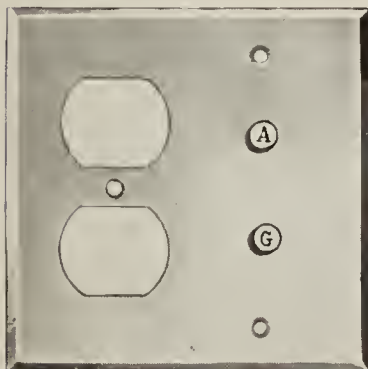

The combination Radio Plate consists of a convenient receptacle and two marked posts. The "G" (Ground) post is grounded to the plate and the "A" (Antenna) post is insulated. The plate has a partition which separates the power from the radio. Partition is made to either a 2" or a 2 1/8" box.

ALL PLATES COMPLETELY ASSEMBLED.

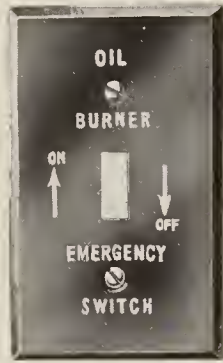

No. 1DH
Clock Hanger Plate

Receptacle recessed in plate to allow attachment cap to come flush to surface. Top of plate has hook for mounting clock.

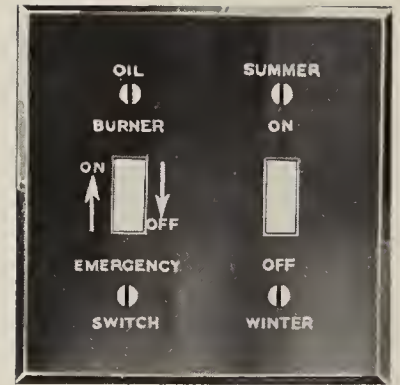

No. 2MR - Duplex and Radio Plate

This Radio Plate is combined with a Duplex Receptacle Outlet. The plate is equipped with "G" (Ground) and "A" (Antenna) posts. The Antenna post is insulated. The plate covers a 2 gang-4" square box containing a partition to separate the power from the radio. The plate is furnished without a partition.
